

STUDIES OF PHRASE-BASED FORMATTING

ReadSmart is a patented technology from Language Technologies, Inc. that automatically formats text emphasizing the phrases of meaning, preempting the work the brain does and optimizing the efficiency of reading. Decades of scientific research have demonstrated that phrase-based formatting improves reading comprehension, speed, and enjoyment. Below is a list of peer-reviewed publications documenting the scientific evidence of the effectiveness of phrase-based formatting.

- Anglin, J. M., & Miller, G. A. (1968). The role of phrase structure in the recall of meaningful verbal material. *Psychonomic Science*, 10, 343–344.
- Beeson, P. M., & Insalaco, D. (1998). Acquired Alexia: Lessons from successful treatment. *Journal of The International Neuropsychological Society*, 4, 621–635.
- Bever, T. G., Jandreau, S., Burwell, R., Kaplan, R., & Zaenan, A. (1990). Spacing printed text to isolate major phrases improves readability. *Visible Language*, 25, 74–87.
- Brozo, W. G. Schmeler, R. V., & Spires, H. A. (1983). The beneficial effect of chunking on good readers' comprehension of expository prose. *Journal of Reading*, 27, 442–445.
- Coleman, E. B., & Kim, I. (1961). Comparison of several styles of typography in English. *Journal of Applied Psychology*, 45, 262–267.
- Cromer, W. (1970). The Difference Model: A new explanation for some reading difficulties. *Journal of Educational Psychology*, 61, 671–683.
- Frase, L. T., & Schwartz, N. J. (1979). Typographical cues that facilitate comprehension. *Journal of Educational Psychology*, 71, 197–206.
- Gerrell, H. R., & Mason, G. E. (1983). Computer-chunked and traditional text. *Reading World*, 22, 241–246.
- Graf, R., & Torrey, J. (1966). Perception of phrase structure in written language. *Proceedings of the 74th Annual Convention of the APA*, 83–84.
